

## D. Fractions and mixed numbers on the number line

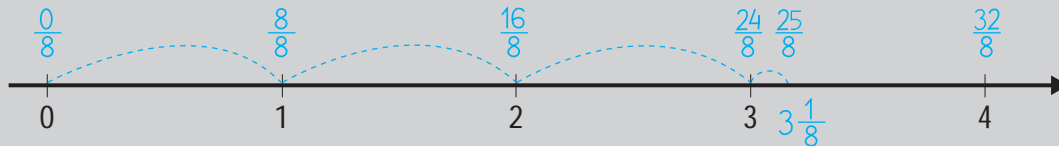

### 24. Finding a fraction that equals a given mixed or whole number

#### 1 What is the fraction that equals a given mixed number?

For each mixed number, find a fraction that equals it. Draw a number line and use giant's and dwarf's steps.

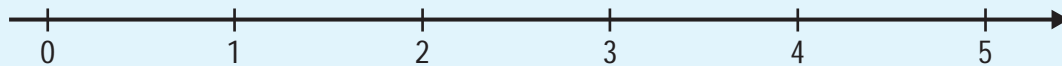

#### Example

$$3\frac{1}{8} = \frac{25}{8}$$

a

$$4\frac{3}{10} = \boxed{\phantom{00}}$$

b

$$4\frac{3}{9} = \boxed{\phantom{00}}$$

c

$$3\frac{2}{6} = \boxed{\phantom{00}}$$
